

HP for Education

HP rewards for equipping your school with the latest technology

HP know how important it is for schools to provide the best learning environment for students. That's why last year HP gave back £2.8m to schools throughout the UK.

Register your school for HP for Education to take full advantage of the exciting new program of rewards and special offers for 2019.

HP Trade in

Trade in your school's old desktops and tablets and we will give you wallet funds to spend on products and services from HP and our specialist education partners.

Alternatively, you can take your trade in rewards as a transfer to your school's bank account.

Loyalty Rewards

Claim loyalty rewards when you purchase qualifying HP accessories or Care Packs for your classroom devices.

Attain Expert Status

If you elect to take your rewards in the form of wallet funds, you will earn Expert Status.

This gives your educational establishment access to exciting new HP Guaranteed Future Value and HP Group Buying offers.

Attain Master Status

To progress from Expert to Master status, all you need to do is claim an HP loyalty reward.

At Master level, your educational establishment will be eligible to apply for the HP Community Tech Fund, even simpler One-Click trade in claims, and the new free of charge HP Proof of Concept service.
